Interpretation:

Combined GP Index: **7,541**

RN: 76496

Probability of Grandparentage: **99.98%**

The alleged grandparents are not excluded as the biological grandparents of the tested child. Based on testing results obtained from analyses of the DNA loci listed, the probability of grandparentage is 99.98%. This probability of grandparentage is calculated by comparing to an untested, unrelated, random individual of the Caucasian population (assumes prior probability equals 0.50).

Subscribed and sworn before me on January 8, 2025

I, the undersigned Laboratory Director, verify that the interpretation of the results is correct as reported on 1/8/2025.
